Hi Tarandeep Singh,

It's nice to meet you. I'm Aleks, the talent coordinator at Outlier. We've reviewed your resume and are excited to move you forward in the process! Here's a quick overview of the opportunity:

- **Your primary expertise:** coding
- **Status:** Contractor
- **Pay:** People with your level of expertise typically receive a deliverable task pay rate of up to 30 per hour. Pay rates vary by project and project phase, and might differ from what you originally applied for as the offered pay is determined after Outlier reviews your expertise and qualifications.

Next steps:

1. **Claim your account** (5 min)

Please be sure to sign up using the same email address you used to submit your application: junejatarandeepsingh@gmail.com. If the hyperlink doesn't work, paste this URL into your browser: https://app.outlier.ai/en/expert/signup?signup_flow=80f96e81-53b8-4b69-8bb8-1279b898561a

2. **Complete phone and ID verification** (5-10 min)

We use a third-party service called Persona in order to keep your information secure. Please note that if you are currently outside the country where your ID was issued, you may encounter an error during verification. If that happens, your case will be reviewed promptly.

3. Sign up for Discourse (5-10 min)

Discourse is our community platform — the place where you'll connect with project admins while you are working on a project. Instructions will appear on your dashboard. Once again, be sure to use the same email address where you received this email: junejatarandeepsingh@gmail.com.

4. Complete platform onboarding (times vary)

You'll complete a set of initial tasks to understand how the platform works and the basics of being a contributor (tasks paid at the assessment task pay rate).

Please note:

- Pay rates are determined by multiple factors, including the expertise, experience, and skills needed for each project
- Pay rates may vary during the project lifecycle, and rates for completing initial project onboarding courses and assessments may be lower
- This offer is contingent upon successful completion of project onboarding, which includes passing assessment questions
- You may be instantly matched with a project, or it may take up to 3 days to get your first match. If you find yourself without a project immediately after completing platform onboarding, please be patient and check in regularly.

Congratulations once again — we're excited to welcome you to Outlier!

Cheers,

Aleks Tiupikov
